Head of the organization
"Humanitarian Aid SISI"
Mgr. Adriana Andreykova

Dear Mrs. Adriana!

On behalf of the community of Ivano-Frankivsk and personally, let me express my gratitude to your organization, as well as to the partners of "Suavinex" and "Vysoka skola zdravotnictva a socialnej prace sv. Alzbety" for the support and the highest expression of solidarity. For us, this help has not only a symbolic dimension, but also gives us faith that we are fighting for a good cause, that we are not alone, and that victory is ahead.

For three months already the Ukrainian army has been resisting in these unequal conditions, in this unjust murderous war. Every day and hour, people continue to flee their homes, fleeing the fire and terror that the occupiers have brought with them to our peaceful land. Our task now is to provide with all necessary those who are at the forefront, our fearless defenders, as well as those who have been forced to seek refuge.

Today, Slovakia expresses its extraordinary solidarity and support for Ukraine. In the face of Russian aggression and danger to the lives of civilians in Ukraine, Ivano-Frankivsk support is extremely important. After all, together we will be able to resist the enemy and protect European values, preserve our freedom.

Please accept again many thanks for these vital things for our defenders. I would also like to draw your attention to the attached list of current needs in support of Ivano-Frankivsk and Ukraine.
